

# Origami Gift Card Holders

Take & Make Kit #8

December 2020

### Included in Kit

Decorative Paper (2 – 1 holiday and 1 neutral)  
Ribbon (2)

### Additional Supplies Needed

none

For help in completing the project, see the picture tutorials below.

	<p><b>Step 1:</b> Begin with an 8 ½ x 11 piece of decorative paper or wrapping paper.</p>		<p><b>Step 2:</b> Fold paper in half vertically. Unfold so that the wrong side of the paper (blank side OR design that will be on the inside of the envelope) is facing up.</p>
	<p><b>Step 3:</b> Fold both sides into the middle. Make sure that edges meet precisely in the middle, as this will show on the outside of your holder.</p>		<p><b>Step 4:</b> Open your paper. Fold each corner down, so it meets the fold line you created in step 3.</p>

**Step 5:** With corners now folded down, fold sides in to meet the middle again, just like in Step 3. Turn over, so that you see this side:

**Step 6:** Fold your envelope in half, horizontally. The sides with the corners folded down are now on the outside. Unfold.

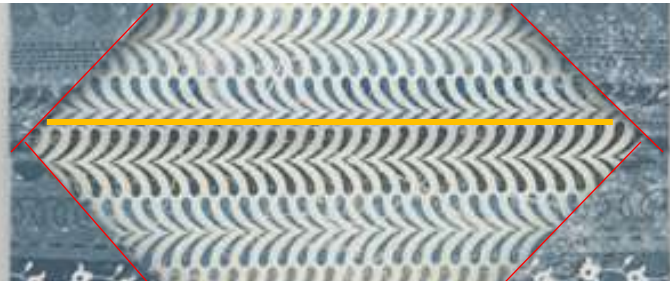

**Step 7:** Fold the top edge down to meet the middle fold line you just created. Crease.

**Step 8:** Fold bottom edge to the middle and just slightly above where top edge ends. Tuck this side just inside the side folded from the top. *See close up.*

**Step 8 (cont.):** Close-up of final fold. Yellow line marks where the edge of the bottom side ends, once it's folded up into the middle and tucked inside the top half. Bottom corners tuck inside the top corners as shown by the red lines.

**Step 9:** Fold entire piece in half, enclose gift card, and tie closed with ribbon.
