

The SAR's Patriot Research System

To access the system, go to <https://sarpatriots.sar.org/>.

1. Patriot Search: This tab allows you to search for a patriot anywhere in the SAR database. Icons indicate biographies, headstones, cemetery listings, applications and DAR profiles that *may* be attached. Click on the patriot number to view the full profile. Unlike DAR's "ancestor" search, not all patriots have been used for membership.
2. Member Search: This tab allows you to search for a member by either their number or name. The results page will indicate their ancestor, allow you to view a portion of their application, and purchase a copy.
3. Descendant Search: A work in progress, this tab will eventually allow you to search names through all digitized DAR applications.
4. Biography Search: This tab allows you to review submitted biographies. Most contain birth and death information, state and type of service, spouse and children.
5. Cemetery Search: This tab will allow you to search for patriot graves by cemetery. *Be patient. It is quirky, slow, and somewhat hard to use.*
